Indicators to be used in the assessment of existing national targets 2006/2007
(Last updated 24th May 2007)**

Acute and Specialist Trusts

Indicator Name	Data Source	Collection deadline[s]	Comments
All cancers: one month diagnosis (decision to treat) to treatment	Cancer waits database	Trusts must submit data by the 25th working day after the end of each quarter	
All cancers: two month GP urgent referral to treatment	Cancer waits database	Trusts must submit data by the 25th working day after the end of each quarter	
All cancers: two week wait	Cancer waits database	Trusts must submit data by the 25th working day after the end of each quarter	
Cancelled operations and those not admitted within 28 days	Monthly monitoring return	24 April 2007	
	QMCO quarterly monitoring	24 April 2007	
Convenience and choice - elective (inpatient and daycase) and outpatient booking	Monthly monitoring return	24 April 2007	

Please note that the data collection deadlines have been supplied to the Healthcare Commission by the collecting organisation, for example the Department of Health. The enclosed list is aimed to assist trusts in assuring themselves that they have submitted data required for the purpose of performance assessment. The list covers only those data sources to be used in the assessment of performance against existing or new national targets. In all cases, trusts are strongly advised to refer to the collection agency's publication scheme for definitive guidance. Deadlines provided within the collection agencies' publication schemes will, in all cases, supersede dates cited within this list and will be used by the Healthcare Commission as the definitive submission deadlines for returns. It remains the responsibility of the NHS organisation to familiarise themselves with data collection agencies' guidance and collection deadlines, validation and refresh opportunities, where applicable. NHS organisations are accountable for ensuring that relevant material is submitted to agencies within their collection periods.
